Legislative Branch Appropriations: Frequently Asked Questions

Updated October 12, 2023
Legislative Branch Appropriations: Frequently Asked Questions

This report responds to frequently asked questions about legislative branch appropriations. Frequently asked questions include the items that are funded within this bill; development, presentation, and consideration of the legislative branch budget requests; the legislative branch budget in historical perspective; and recent actions.

Consideration of FY2024 legislative branch funding began in March with the release of the Budget Appendix, which includes the legislative branch request. The House Legislative Branch Appropriations Subcommittee and the Senate Legislative Branch Appropriations Subcommittee held hearings that month to discuss the requests.

On May 9, 2023, the President submitted a budget amendment, which would decrease by $17 million the overall discretionary budget authority in the FY2024 legislative branch budget request. The budget amendment would address the Senate (two language requests, one increase in a request, and two decreases to requests; total requested level decreased by $17.7 million), joint items (a decrease of $215,000 in the request for the Joint Economic Committee), and the Congressional Office for International Leadership (an increase of $1.2 million in the request). The revised request of $7.134 billion represents an increase of 3.4% from the FY2023 enacted level.

On May 17, 2023, the House Appropriations Committee, Subcommittee on the Legislative Branch held a markup of the FY2024 bill and ordered it reported by voice vote.

On June 21, 2023, the full House Appropriations Committee marked up the bill and ordered it reported by roll call vote (Roll Call #5, 33-24) (H.R. 4364, H.Rept. 118-120). It would provide $5.301 billion, not including Senate items, a $261.2 million decrease (-4.7%) from the comparable FY2023 enacted level. A number of amendments were considered during the markup: a manager’s amendment adopted by voice vote; two amendments adopted by roll call vote; and two amendments not adopted by roll call vote.

The Senate Appropriations Committee approved its initial 302(b) suballocations on June 22, 2023, by recorded vote (15-13, S.Rept. 118-45). The plan would include $6.761 billion in discretionary budget authority for the legislative branch (approximately 0.4% of total discretionary budget authority).

On July 13, 2023, the Senate Appropriations Committee held a markup of the FY2024 legislative branch appropriations bill. The bill was ordered reported by a vote of 29-0 (S. 2302, S.Rept. 118-60). The bill, as amended, would provide $4.741 billion (not including House items), a $196.2 million decrease (-4.0%) from the comparable FY2023 enacted level.

A continuing appropriations resolution extending funding through November 17, 2023, was enacted on September 30, 2023 (P.L. 118-15).

The House Rules Committee met to discuss a rule for consideration of H.R. 4364 on October 2, 2023. The House adopted the special rule (H.Res. 756, H.Rept. 118-242) on October 3.

Previously, Division I of the FY2023 Consolidated Appropriations Act (P.L. 117-328), enacted on December 29, 2022, provided $6.899 billion for legislative branch activities (an increase of $975.2 million, or +16.5%, from the FY2022 enacted level).

For information on FY2023 funding, see CRS Report R47296, Legislative Branch: FY2023 Appropriations.

Frequently Asked Questions

In addition to the Senate and House of Representatives, what is funded by the legislative branch appropriations bill?

In addition to the Senate and House of Representatives, the legislative branch bill typically funds Joint Items, including the Joint Economic Committee, Joint Committee on Taxation, Office of the Attending Physician, Office of Congressional Accessibility Services, and in some years, the Joint Congressional Committee on Inaugural Ceremonies; Capitol Police; Office of Congressional Workplace Rights (OCWR, formerly the Office of Compliance); Congressional Budget Office (CBO); Architect of the Capitol (AOC); Library of Congress (LOC), including the Congressional Research Service (CRS); Government Publishing Office (GPO); Government Accountability Office (GAO); and the Congressional Office for International Leadership (formerly the Open World Leadership Center, renamed in the FY2022 Consolidated Appropriations Act).

Why is the legislative branch budget request included in the President’s budget request? Does the President play any role in its development?

The President has no formal role in the development of the legislative branch budget request, even though it is included in the President’s annual budget request documents.

By long-standing law and practice, the legislative branch request and any supplemental requests are submitted to the President and included in the budget without change. While the executive branch budget submissions generally involve interaction between an agency and the Office of Management and Budget (OMB), the legislative branch requests do not. The executive branch does not review or maintain documentation in support of the legislative branch requests.

1 Pursuant to 31 U.S.C. §1105, “Estimated expenditures and proposed appropriations for the legislative branch and the judicial branch to be included in each budget ... shall be submitted to the President ... and included in the budget by the President without change.” Division C of the FY2012 Consolidated Appropriations Act (P.L. 112-74) added language to 31 U.S.C. §1107 relating to budget amendments, stating: “The President shall transmit promptly to Congress without change, proposed deficiency and supplemental appropriations submitted to the President by the legislative branch and the judicial branch.”

2 OMB Circular A-11, Part 2, “Preparation and Submission of Budget Estimates,” Section 25, provides the following information for agencies and entities, including the legislative branch, “not subject to Executive Branch review by law or custom. That means that the requirements for submitting materials in support of your budget request do not apply to you. However, you do need to submit the information required for inclusion in the budget database and documents, which OMB incorporates without revision” (https://www.whitehouse.gov/omb/information-for-agencies/circulars/).
What percentage of discretionary budget authority historically goes to the legislative branch?

Discretionary budget authority is provided and controlled by the annual appropriations acts. Since FY1976, the legislative branch as a proportion of total discretionary budget authority has averaged approximately 0.40%. The maximum level, not including the transition quarter, was in FY1995 (0.48%), and the minimum was in FY2020 (0.28%).

What percentage of total budget authority (mandatory and discretionary) historically goes to the legislative branch?

Total budget authority includes both discretionary budget authority controlled by the annual appropriations acts and mandatory budget authority controlled by previous laws, including entitlements. Since FY1976, the legislative branch as a proportion of total budget authority has averaged 0.16%. The maximum level, 0.23%, was in FY1977, and the minimum, 0.07%, was in FY2020.

How is funding divided across the legislative branch?

Figure 1 shows the distribution of funding across the legislative branch in FY2022 and FY2023.

---

3 Calculations by CRS with data from Office of Management and Budget (OMB), “Table 5.4—Discretionary Budget Authority By Agency: 1976-2028,” in Historical Tables, Budget of the United States Government, FY2024, at https://www.whitehouse.gov/omb/historical-tables/. The calculations have some limitations, since the OMB data do not completely align with items funded in the annual and supplemental legislative branch appropriations acts. The differences may be partially traced to the definition of “legislative branch” in the OMB Public Budget Database user’s guide. Some entities regularly included with the legislative branch in many OMB budget documents, like the U.S. Tax Court and some Legislative Branch Boards and Commissions, are not funded through the annual legislative branch appropriations acts. Consequently, an examination of the discretionary budget authority listed in the Historical Tables reveals some differences with the reported total budget authority provided in the annual legislative branch appropriations acts. The difference in legislative branch budget authority resulting from the different definitions of the legislative branch in the OMB budget documents and in the appropriations acts, however, does not represent a significant difference in the proportion of total discretionary budget authority.

4 “Prior to 1977, the fiscal year began on July 1 and ended on June 30 ... Fiscal year 1976 ended on June 30, 1976, and fiscal year 1977 began on October 1, 1976. The period July 1, 1976, to September 30, 1976, is called the ‘transition quarter’ or TQ.” (Office of Management and Budget, Budget Analysis Branch, Public Budget Database User’s Guide, Budget of the United States Government, FY2022, May 2021, p. 2.)

5 FY2022 is the most recent year for which actual, rather than estimated, data are available. Calculations by CRS with data from Office of Management and Budget (OMB), “Table 5.2—Budget Authority by Agency: 1976–2028,” in Historical Tables, Budget of the United States Government, FY2024, at https://www.whitehouse.gov/omb/historical-tables/. The calculations have some limitations, since, as stated above, the OMB data do not completely align with items funded in the annual and supplemental legislative branch appropriations acts.

Why do the initial committee-reported versions of the annual bill not fund the other chamber?

The House and Senate both consider funding levels for the legislative branch agencies and joint entities. By long-standing tradition, however, the House bill does not propose funding levels for Senate items, including the account that funds the Senate and the Senate office buildings account within the Architect of the Capitol. The Senate does not comment on House items, including the account that funds the House and the House office buildings account within the Architect of the Capitol. The House, Senate, and conference reports on legislative branch appropriations bills regularly contain language illustrating the deference of each chamber to the internal practices of the other. If comparing the House and Senate bill totals, or the total provided

---

6 The House and Senate office building accounts are 2 of the 10 accounts that fund operations of the Architect. The other accounts fund capital construction and operations, Capitol building, Capitol grounds, Capitol Power Plant, Library buildings and grounds, Capitol Police buildings and grounds, Capitol Visitor Center, and Botanic Garden.

7 For example, the FY1996 conference report (U.S. Congress, House Committee on Appropriations, FY1996 Legislative Branch Appropriations Bill, H.Rept. 104-212, report to accompany H.R. 1854, p. 9) states

   Inasmuch as the amendment relates solely to the Senate and in accord with long practice under which each body concurs without intervention, the managers on the part of the House, at the request of the managers on the part of the Senate, have receded to the Senate amendment, as amended.

Similarly, the FY2010 conference report (U.S. Congress, conference committee, FY2010 Legislative Branch Appropriations Bill, H.Rept. 111-265, report to accompany H.R. 2918, p. 33) states

   Inasmuch as these items relate solely to the House, and in accord with long practice under which (continued...)
to the Architect of the Capitol at different stages of consideration, adjustments may be necessary
to address any omissions due to this practice.

**How has funding for the legislative branch changed in recent years in current and constant (inflation-adjusted) dollars?**

Table 1 provides information on the enacted funding levels provided for the legislative branch from FY2008 to FY2023.

**What funding has been provided in recent years for the Senate, House of Representatives, and legislative branch agencies?**

Table 2 provides information on funding levels for the Senate, House of Representatives, and legislative branch agencies in recent years as well as the requested, House-reported (H.R. 4364), and Senate-reported (S. 2302) levels for FY2024.

By law, the President includes the legislative branch request in the annual budget submission without change.

---

each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the amendment of the House as amended.

**Source:** CRS analysis of legislative branch appropriations acts and related budget documents.

**Notes:** These figures exclude permanent budget authorities, including funding for Member pay, that are not included in the annual legislative branch appropriations bill. Constant 2023 dollars calculated using the “Total Non-Defense” deflator in Table 10.1—Gross Domestic Product and Deflators Used in the Historical Tables: 1940–2028 in the President's FY2024 budget request. See notes below or related CRS reports for additional information on specific years.

- a. This number contains appropriations provided by P.L. 111-8 (the FY2009 Omnibus Appropriations Act), $25.0 million for the Government Accountability Office provided by P.L. 111-5 (the American Recovery and Reinvestment Act of 2009), and $73.6 million provided by P.L. 111-32 (the Supplemental Appropriations Act, 2009) for the U.S. Capitol Police and the Congressional Budget Office.
- b. This number contains appropriations provided by P.L. 111-68 (the FY2010 Legislative Branch Appropriations Act), and $12.96 million in supplemental appropriations provided for the U.S. Capitol Police in P.L. 111-212 (the Supplemental Appropriations Act, 2010).
- c. This number does not include scorekeeping adjustment.
- d. FY2013 level obtained from the CBO cost estimate for “Continuing Appropriations Resolution, 2014 (H.J.Res. 59), Including the Amendment Reported by the House Committee on Rules on September 18, 2013 (H.Res. 352) Discretionary spending (in millions of dollars),” which lists a total for legislative branch budget authority of $4.061 billion, noting that it “includes effects of the 2013 sequestration.” This bill contained a small anomaly for the legislative branch.
- e. Does not include $14.0 million provided to the Government Accountability Office “for audits and investigations relating to Hurricanes Harvey, Irma, and Maria and the 2017 wildfires” (P.L. 115-123, Title IX of Division B, enacted February 9, 2018).
- f. The total includes $10.0 million in FY2019 supplemental appropriations for GAO for audits and investigations related to storms and disasters (P.L. 116-20, enacted June 6, 2019).
- g. The total does not include $93.1 million in FY2020 supplemental appropriations, including $10.0 million for the Senate, $25.0 million for the House of Representatives, $400,000 for the Office of the Attending Physician, $12.0 million for the Capitol Police, $25.0 million for the Architect of the Capitol, $700,000 for the Library of Congress, and $20.0 million for the Government Accountability Office (CARES Act, P.L. 116-136, enacted March 27, 2020).
- h. The total does not include funding provided in the Emergency Security Supplemental Appropriations Act, 2021 (P.L. 117-31, July 30, 2021), which provided $448.6 million.
- i. The total does not include $7.5 million in supplemental appropriations provided for GAO in P.L. 117-328.

</table>

a. Does not include emergency appropriation provided by P.L. 115-123. Title IX of Division B provided $14.0 million to GAO “for audits and investigations relating to Hurricanes Harvey, Irma, and Maria and the 2017 wildfires.”

b. Does not include emergency appropriation provided by P.L. 116-20. Title IX provided $10.0 million to GAO for audits and investigations related to storms and disasters.

c. The table does not include emergency appropriations of $93.1 million provided in P.L. 116-136 ($10.0 million for the Senate, $25.0 million for the House of Representatives, $400,000 for the Office of the Attending Physician, $12.0 million for the Capitol Police, $25.0 million for the Architect of the Capitol, $700,000 for the Library of Congress, and $20.0 million for the Government Accountability Office).

e. The FY2024 requested levels include a budget amendment submitted on May 9, 2023, which would decrease the total legislative branch request by $17 million. The budget amendments would address the Senate (largely decreases and language requests), joint items (a decrease of $215,000 in the request for the Joint Economic Committee), and the Congressional Office for International Leadership (an increase of $1.2 million in the request). See President Joseph R. Biden, “Letter to the Speaker of the House of Representatives on Fiscal Year 2024 Budget Amendments,” May 9, 2023, https://www.whitehouse.gov/wp-content/uploads/2023/05/FY_2024_Budget_Amendment_Corrections_5-9-23.pdf. Total does not include gratuity payments for survivors of deceased Members of Congress.

f. “Joint Items” generally contains funding for the Joint Economic Committee, the Joint Committee on Taxation, the Office of the Attending Physician, and the Office of Congressional Accessibility Services. In fiscal years prior to an inauguration, it also contains funding for the Joint Congressional Committee on Inaugural Ceremonies (e.g., $1.25 million for FY2016; $1.5 million for FY2020).

g. Formerly known as the Office of Compliance, the Office of Congressional Workplace Rights (OCWR) was renamed by the Congressional Accountability Act of 1995 Reform Act (P.L. 115-397).

h. The House Appropriations Committee report (H.Rept. 116-64) describes “Appropriations Shifts to Reflect Centralized Funding for Information Technology” that affected the four LOC appropriations headings. The report states that the House-reported FY2020 level represents an increase of $2.99 million for CRS when reflecting the centralized IT funding.

i. The FY2022 appropriations act contained a provision changing the name from the Open World Leadership Center to the Congressional Office for International Leadership (COIL).

j. Includes, for example, scorekeeping adjustments or prior-year outlays.

k. Gratuity payments to heirs of deceased Members of the House were provided in P.L. 117-103, P.L. 117-128, P.L. 117-180, and P.L. 117-229. Does not include $7.5 million in supplemental funding provided to GAO (P.L. 117-328).
Are Member salaries funded or adjusted in the legislative branch appropriations bill?

No, salaries for Members of Congress are neither funded nor increased in the legislative branch bill.

Member salaries have been included as mandatory spending since FY1983, and the amount of potential Member pay adjustments is calculated pursuant to the Ethics Reform Act of 1989, which established a formula based on changes in the Employment Cost Index (ECI). The adjustment automatically takes effect unless (1) Congress statutorily prohibits the adjustment; (2) Congress statutorily revises the adjustment; or (3) the annual base pay adjustment of General Schedule (GS) federal employees is established at a rate less than the scheduled increase for Members, in which case the percentage adjustment for Member pay is automatically lowered to match the percentage adjustment in GS base pay.

Members of Congress last received a pay adjustment in January 2009. Since then, the compensation for most Senators, Representatives, Delegates, and the Resident Commissioner from Puerto Rico has been $174,000.

The maximum potential 2024 member pay adjustment, based on the ECI, is 4.6%, or $8,000.

S. 2302, as reported, includes a provision (Section 211 of the general provisions) to freeze Member pay for FY2024.

H.R. 4364, as reported, did not include a provision freezing Member pay, but such a provision was added pursuant to a manager’s amendment, to be considered as adopted, included in the rule for consideration of the bill. The rule, H.Res. 756 (H.Rept. 118-242), was agreed to in the House on October 3, 2023.

Although discussion of Member pay is often associated with appropriations bills, these bills do not contain language funding or increasing Member pay, and a prohibition on the automatic annual Member pay adjustments could be included in any bill, or be introduced as a separate bill.

For a list of the laws that have previously contained provisions prohibiting the annual pay adjustments, see “Table 3. Legislative Vehicles Used for Pay Prohibitions, Enacted Dates, and Pay Language” in CRS Report 97-1011, Salaries of Members of Congress: Recent Actions and Historical Tables, by Ida A. Brudnick.

---

9 The potential Member pay adjustment was determined by a formula using the Employment Cost Index (private industry wages and salaries, not seasonally adjusted), based on the 12-month percentage change reported for the quarter ending December 31, minus 0.5%. The 4.6% potential adjustment was determined by taking the percentage increase in the index between the quarters ending December 2021 and December 2022, which was 5.1%, and subtracting 0.5%. U.S. Department of Labor, Bureau of Labor Statistics, Employment Cost Index—December 2022, January 31, 2023, p. 15. Pursuant to 2 U.S.C. §4501(2)(A), this amount is “rounded to the nearest multiple of $100.”
In contrast, the salaries and benefits for legislative branch employees are provided by the legislative branch appropriations acts, although they generally do not address pay adjustments.\textsuperscript{10}
