This report provides a table to summarize and provide a side-by-side comparison of the provisions concerning lobbying, ethics, and related congressional procedural reforms that are currently being considered in S. 2349 and H.R. 4975, 109<sup>th</sup> Congress. The table will be updated and amended regularly to reflect amendments and changes in the legislation discussed.

Primarily responsible for the coverage of the provisions concerning congressional ethics is Jack Maskell, Legislative Attorney, American Law Division; lobbying reform is Eric Petersen, Analyst in American National Government, Government and Finance Division; and congressional procedural reform is Sandy Streater, Analyst in American National Government, Government and Finance Division. Assistance with the provision concerning congressional pay raises was provided by Ida Brudnick, Analyst in American National Government, Government and Finance Division, and with the campaign finance provisions relating to “527s” by Paige Whitaker, Legislative Attorney, American Law Division, and Joe Cantor, Specialist in American National Government, Government and Finance Division.

At the conclusion of the side-by-side comparison is a list of CRS Reports that provide further discussion and more detailed analysis of many of the issues that are addressed in the legislation and summarized in the preceding charts.

<b>CONGRESSIONAL ETHICS REFORMS</b>			
Gifts — <i>de minimis</i> exception	Senate Rule XXXV, House Rule XXV, cl. 5, prohibit receipt of gifts by Members and staff from most sources, but exempt a gift of under \$50 in value (if aggregate gifts in one year from same source do not exceed \$100).	Section 106. For Senators and staff, prohibits even <i>de minimis</i> gifts, that is, those under \$50 (including meals), from a registered lobbyist or agent of a foreign principal. (Note: refreshments of “nominal value,” when offered “other than as part of a meal,” would appear to still be permitted under exception at Senate Rule XXXV, cl. 1(c)(22)).	Section 302. Instructs the House Committee on Standards of Official Conduct to recommend, by December 15, 2006, any changes in “current dollar limitations” under House gift rules.
Gifts — valuation	No specific valuation provision in current House or Senate Rules.	No provision.	Section 304. Requires valuation (for purposes of the under-\$50- <i>de minimis</i> exception) of unpriced tickets and passes to sporting/entertainment events at the highest price of a ticket to event with a face value.

Issue/Provision	Current Law or Rule	S. 2349	H.R. 4975
<p>Gifts — Travel: private sources paying for “officially connected” travel</p>	<p>House Rule XXV, cl. 5(f), Senate Rule XXXV, cl. 2(d), now allow acceptance of “officially connected,” “necessary” and “reasonable” travel expenses from some private sources (not lobbyists or foreign agents) for a limited amount of time when purpose of trip is sufficiently connected to official duties, if such travel and expenses are disclosed within 30 days of trip. “Necessary expenses” currently excludes expenses for personal entertainment or recreational activities.</p>	<p>Section 107(a). Requires certification to and approval from the Senate Select Committee on Ethics prior to Senators, officers, or employees accepting travel and transportation expenses or reimbursements from a private source (not a governmental entity) for any “officially connected” travel. Sponsor of trip must certify in writing as to source of funds. Detailed itinerary, and reporting required.</p>	<p>Section 301. Suspends permission to accept any privately financed travel in connection with official duties by Members, officers and employees of the House. Section 302 instructs House Committee on Standards to recommend Rule changes concerning the acceptance of privately funded, “officially connected” travel by December 15, 2006.</p>
<p>Travel on private, “corporate aircraft”</p>	<p>Travel on private, corporate aircraft generally must be reimbursed so that such travel for official purposes will not be a contribution to an “unofficial office account” (Senate Rule XXXVIII, House Rule XXIV), or, if for personal reasons, a personal “gift” to Member, officer or employee. No specific provision on “market value,” rate of reimbursement, required for such flights under House or Senate Rules (but see F.E.C. regs. for reimbursement of campaign-related travel).</p>	<p>Section 107(b). Amends Senate Rules to require reporting of travel by Senators and staff on private corporate jets (aircraft not licensed by the FAA for commercial air travel), — detailing to Secretary of Senate date, destination, owner or lessee of aircraft, purpose of and persons on trip. Does not prohibit, nor establish “market value” of such travel for purposes of reimbursement. Requires similar reporting to the F.E.C. for candidate travel for campaign purposes.</p>	<p>Section 303. Amends Lobbying Disclosure Act of 1995 [LDA] to prohibit lobbyist or lobbying firm from being on flight with House Member or staff on a private aircraft (aircraft not licensed by the FAA for commercial air travel) if aircraft is owned or operated by a client of the lobbyist of a lobbying firm. Does not prohibit such travel on private jets generally, nor establish rules for the “market value” of travel for purposes of reimbursement.</p>

<p>“Revolving door,” post-employment conflicts of interest</p>	<p>18 U.S.C. § 207(d) prohibits, for one year after leaving office, “very senior” executive branch officials from lobbying — making communications or appearances with intent to influence — certain officials on the Executive Schedule within the entire executive branch, and all employees within one’s former agency.</p> <p>18 U.S.C. § 207(e) prohibits, for one year after leaving office, Members and certain senior staff from lobbying — making communications or appearances with intent to influence — either House of Congress (for former Members), or their former employing office (for senior staff).</p> <p>Senate Rules (Rule XXXVII(9)) prohibit all Senate employees who become lobbyists from lobbying their former office for one year.</p>	<p>Section 241. Increases from 1 to 2 years current post-employment “cooling off” period for very senior executive branch personnel (Vice President, cabinet members, and certain presidential and vice presidential assistants), and for Members of Congress lobbying certain personnel in former branch of Government. Also increases scope of current 1-year “cooling off” period for senior Hill staff by restricting for 1 year post-employment lobbying of any Member, office, or employee of the entire House of Congress in which the staffer had worked (and not merely one’s former employing office or Member).</p> <p>Section 108. Amends current Senate Rules by prohibiting “senior” Senate staff (compensated at a rate of more than 75% of a Member’s salary, and employed more than 60 days) who become registered lobbyists from lobbying, for one year after leaving office, <i>any</i> Member, officer or employee of Senate.</p>	<p>No further post-employment lobbying, “revolving door,” prohibitions. Section 201 requires the Clerk of the House to notify departing Members and staff of the current restrictions on post-employment lobbying.</p>

Amends House Rules to require Members to file with Comm. on Standards a statement that they are negotiating compensation for prospective employment or have any arrangement for prospective employment, if there would exist a conflict or appearance of a conflict of interest. Section 214. Requires lobbyists also to disclose all prior executive and legislative branch employment in registration statements.	Section 104. Requires lobbyists also to disclose all prior executive and legislative branch employment in registration statements for seven years prior to registration.
"Coalition" lobbying: disclosures	2 U.S.C. § 1602. In definitions section, LDA provides that a "coalition" is generally to be considered the "client" of a lobbyist, and not the individual organizations that are members of the coalition.	Section 217. Requires lobbyist-registrant to list, besides "coalition" as "client," any other organization contributing more than \$10,000 to lobbying activities of lobbyist in reporting period and who "participates in a substantial way in the planning supervision or control of such lobbying activities." Issue/Provision	Current Law or Rule	S. 2349	H.R. 4975
Gifts from lobbyists — prohibition	House and Senate Rules regulate Members and staff accepting gifts from lobbyists, but Rules do not extend to lobbyists who are outside of purview of ethics committees. Lobbyists, and all others, prohibited from offering “bribes” and “illegal gratuities” to Members and staff. 18 U.S.C. § 201.	Section 251. No provision.

Issue/Provision	Current Law or Rule	S. 2349	H.R. 4975

<p>“Grassroots” lobbying disclosure</p>	<p>2 U.S.C. § 1602; 2 U.S.C. § 1604. Current law requires only reporting of expenses and information on <i>direct</i> “lobbying contacts,” and certain other “lobbying activities” in support of such direct contacts, but does not separately require reporting of “grassroots” lobbying expenditures.</p>	<p>Section 220. Would require reporting of certain paid efforts to stimulate grassroots lobbying that are done on behalf of clients. Further defines “lobbying activities” to “include paid efforts to stimulate grassroots lobbying but that do not include grassroots lobbying.” Defines “paid efforts to stimulate grassroots lobbying” as “any paid attempt in support of lobbying contacts on behalf of a client to influence the general public or segments thereof to contact one or more covered official to urge those officials (or Congress) to take specific action....” Grassroots lobbying firms would be any person or entity “retained by one or more clients in paid efforts to stimulate grassroots lobbying on behalf of such clients.” Requires registration by grassroots lobbying firms not later than 45 days after it is retained by a client. Requires separate itemization by registered lobbyists and registered grassroots lobbying firms of paid efforts to stimulate grassroots lobbying from the total amount of income received for lobbying. Self regulation of lobbying	No current provision of law or Rule.	Section 233. <b>CONGRESSIONAL OPERATIONS AND PROCEDURES</b>			
Conference Reports — out of scope matters	Senate Rule XXVIII prohibits members of a conference committee (conferees) from including matter not provided in the House- or Senate-passed versions of bill (new matter) in a conference report. In cases in which conferees are negotiating over a bill and a complete substitute amendment, conferees may include in conference report a new substitute on the same subject. While conferees may not include new matter, they may include matter which is a germane modification of provisions in either bill or original substitute amendment. If a point of order that conference report violates this rule is sustained, conference report falls or is recommitted to conference committee. Chair’s ruling may be appealed, sustaining Chair’s ruling requires majority vote, w/quorum present.	Section 102 provides a freestanding provision that does not explicitly or directly amend any Senate rule. This section would prohibit consideration on the Senate floor of any conference report that includes matter that was not provided in the House- or Senate-passed versions of the bill. If a point of order under this provision was sustained, the new matter would be stricken and the Senate would consider whether to send an amendment containing the remaining provisions in the conference report to the House. More than one point of order could be raised, and the Senate would consider the amendment after all points of order have been disposed of. This question would be debatable. No further amendments would be allowed. A 3/5 vote of all Senators would be required to waive or suspend section 102 or override an appeal of the Chair’s ruling.	No new provision.

Issue/Provision	Current Law or Rule	S. 2349	H.R. 4975
Conference Reports — layover requirements	Senate Standing Rule XXVIII allows a motion to proceed to consider a conference report at any time if copies of the conference report are available to each Senator.	Section 104 amends the Standing Rules of the Senate (XXVIII) to prohibit consideration of a conference report, unless report is available to all Senators and available on Internet for at least 24 hours before its consideration. The effective date of this section is 60 days after enactment. Not later than this date, the Secretary of the Senate would be required to develop and establish a website capable of meeting the above requirement, after consulting with Enrolling Clerks of the Senate and House of Representatives, the Government Printing Office, and the Senate Committee on Rules and Administration.	No new provision.

Issue/Provision	Current Law or Rule	S. 2349	H.R. 4975
Earmarks	<p>In current practice, earmarks may be included in measures, committee reports, conference reports, joint explanatory statements, and committee lists. A single list by bill is frequently not available, instead earmarks may be organized in a document by agency, subject, or program. The documents generally do not include information identifying the earmark sponsor(s).</p> <p>Senate: The Senate typically brings up a measure by unanimous consent or on a motion to proceed, requiring a majority vote. If a motion is used, a point of order against its consideration could be raised. The chair would rule on the point of order, although the ruling would be subject to appeal.</p> <p>House: Before the House considers a general appropriations measure,<sup>a</sup> or conference report to such a bill, it typically adopts a blanket waiver of any rules that might prohibit consideration of the measure or conference report. If a waiver is not adopted and a point of order is raised, the Presiding Officer rules on the point of order. If the point of order is</p>	<p>Section 103 adds a new Senate Standing Rule, Rule XLIV, which would require disclosure of certain earmarks and a 24-hour layover requirement. It would prohibit consideration of any Senate bill, Senate amendment, or conference report to any bills (including appropriations, authorization, and revenue bills) unless certain earmark information was available to all Senators, and available on the Internet for at least 24 hours, before its consideration. The required earmark information is: (1) a list of all earmarks in the measure, (2) identification of the Senator(s) that proposed the earmark, and (3) an explanation of the essential governmental purpose of the earmark. This section defines <i>earmark</i> as a provision that specifies the identity of a non-federal entity to receive a specific amount of assistance (in the form of budget authority, contract authority, loan authority, other expenditures, tax expenditure, or other revenue items). If a point of order is raised under this provision, the chair would rule on it, although the ruling would be subject to appeal.</p>	<p>Section 501 would require disclosure of certain earmarks. It would prohibit consideration of a general appropriations bill reported by the House Committee on Appropriations unless the committee report included (1) a list of earmarks provided in the reported bill or in the committee report and (2) identification of any Representative submitting a request for an earmark on the list. Section 501 also would prohibit consideration of a conference report for a general appropriations bill unless the joint explanatory statement contained a list of earmarks (and any Representative requesting such earmark) that originated at the conference stage. The provision regarding conference reports would not be subject to a waiver. If a point of order was raised under section 501, the chair would not rule. Instead, the House would consider the question of consideration, which would be debatable for 20 minutes. This section defines <i>earmark</i> as a provision in a measure (committee report, conference</p>

Votes and congressional pay raises	2 U.S.C. 31 provides for an automatic annual adjustment of pay for Members of Congress that is determined by a formula using a component of the Employment Cost Index, which measures rate of change in private sector pay. The adjustment for Members automatically takes effect unless (1) Congress statutorily prohibits the adjustment; (2) Congress statutorily revises the adjustment; or (3) the annual base pay adjustment of General Schedule (GS) federal employees is established at a rate less than the scheduled increase for Members, in which case Members are paid the lower rate.	Provides that any adjustment under 2 U.S.C. 31 shall not be paid to any Member of Congress who voted for any amendment (or against the tabling of any amendment) that provided that such adjustment would not be made. Directs any amount not paid under this provision be transmitted to the Treasury for deposit in the appropriations account under the subheading "Medical Services" under the heading "Veterans Health Administration".	No new provision.

Floor privileges — former Members	<p>House Rule IV, Section 4 disallows floor privileges to former Member who is a registered lobbyist or agent of a foreign principal, has a personal interest in a matter, or is in the employ of anyone to influence the passage or defeat of any measure pending before the House or under consideration of committees.</p> <p>On 1/31/2006, House adopted H.Res. 648, amending House Rule IV to deny floor privileges to former Members, officers and certain staff: who are registered lobbyists or agents of a foreign principal; have any direct personal or pecuniary interest in any legislative measure pending before House or reported by a committee; or are employed or represent any entity to influence the passage, defeat, or amendment of any legislative proposal.</p>	Section 105. Amends the Standing Rules of the Senate to withdraw privileges to the Senate floor for any former Member or officer of the Senate (Senate Rule XXIII) who is a “registered lobbyist” or an “agent of a foreign principal,” or is in the employ or represents any party to influence the passage or defeat of legislation.	No new provision.

<p><b>CAMPAIGN FINANCE</b></p>			
<p>Reform of “527” organizations’ campaign expenditures</p>	<p>Although most 527’s are considered “political committees,” as defined and regulated by the Federal Election Campaign Act (FECA), some are not currently regulated by FECA despite engaging in activity related to federal elections, arguably because their communications do not expressly advocate the election or defeat of a clearly identified candidate.</p>	<p>No provision.</p>	<p>Title VI applies federal regulation to 527s involved in federal election-related activities, but not currently regulated by the FECA. Virtually identical to H.R. 513 (Shays-Meehan), as reported by House Admin. Comm. without recommendation. Would add political organizations operating under § 527 of Internal Revenue Code to definition of <i>political committee</i> under FECA, unless involved exclusively in state and local elections; would require political committees (but not candidate or party committees) making disbursements for voter mobilization activities or public communications that affect both federal and non-federal elections to generally use at least 50% hard money from federal accounts to finance such activities (but requires that 100% of public communications and voter drive activities that refer to only federal candidates be financed with hard money from a federal account). Would allow contributions to non-federal accounts</p>

			making allocations under this provision only by individuals and in amounts of up to \$25,000 per year. In one additional provision not included in H.R. 513, section 604 would repeal the limitation on coordinated expenditures by political parties under the FECA.
