Personnel Files: Military Service and Pension Records at the National Archives

The Military Personnel Records division of the National Personnel Records Center (NPRC), a component of the National Archives and Records Administration (NARA) located in St. Louis, Missouri, holds most existing U.S. military personnel, health, and medical records of discharged and deceased servicemembers of all services from World War I to the present. Some older records have been electronically scanned to reduce the handling of fragile records. See NARA's site "Access to Military Service and Pension Records" at <https://www.archives.gov/research/order/research/order/order-vets-records>.

Official Military Personnel File (OMPF) records may be requested online at <https://www.archives.gov/veterans/military-service-records>, via the eVetRecs online system or by using the Standard Form (SF)180 and submitting by mail (the appropriate address listed on the back of the form), or fax (314-801-9195).

- Access the eVetRecs system at <https://vetrecs.archives.gov/VeteranRequest/home.html>
- The eVetRecs Help page is available at <https://www.archives.gov/veterans/military-service-records/evetrecs-help.html>
- Information about SF-180 is available at <https://www.archives.gov/veterans/military-service-records/standard-form-180.html>

Veterans, their next-of-kin (NOK), or authorized representatives (e.g., lawyers, doctors) may request these records. According to the NPRC, the NOK is the un-remarried widow or widower, son, daughter, father, mother, brother or sister.¹

If an individual does not meet the definition of a NOK, he or she is considered a member of the general public and may request military personnel records via the Freedom of Information Act (FOIA). See "Access to Official Military Personnel Files (OMPF) for the General Public" at <https://www.archives.gov/personnel-records-center/ompf-access-public>.

NPRC Fire and Reconstructing Lost Military Records

In 1973, a fire at NPRC destroyed approximately 16 million to 18 million Army and Air Force official military personnel files.² In such cases where files were lost, NPRC uses alternate sources of information to respond to requests.

See also the Department of Veterans Affairs (VA) site on how to reconstruct military records destroyed in NPRC fire at <https://www.va.gov/records/get-military-service-records/reconstruct-records/>. This site provides guidance on military records needed to submit disability

Cold War Recognition Certificate

The National Defense Authorization Act (NDAA) for Fiscal Year 1998 (P.L. 105-85) in Section 1084 required the Secretary of Defense to prepare a certificate recognizing the Cold War service of qualifying members of the Armed Forces and civilian personnel of DOD and other government agencies contributing to national security. This certificate, known as the “Cold War Recognition Certificate,” may be awarded upon individual request to all members of the Armed Forces and qualified federal government civilian personnel who served the United States during the Cold War era from September 2, 1945, to December 26, 1991.⁵

Finding Unit Histories

The Modern Military Records office of NARA has custody of records relating to World War I, World War II, Korea, and Vietnam. The records vary by conflict and branch of service; for example, the records for Army units active during the interwar periods (1920-1939 and 1945-1950) are incomplete. For more information, contact the Textual Records unit at

Textual Records Division
National Archives and Records Administration at College Park
8601 Adelphi Road
College Park, MD 20740-6001
<https://www.archives.gov/college-park>
Email: archives2reference@nara.gov

⁴ Military Awards and Decorations at <https://www.archives.gov/personnel-records-center/awards-and-decorations>.

⁵ Cold War Recognition Certificate at <https://www.archives.gov/personnel-records-center/awards-and-decorations#cw>. Additional information on how to request a certificate is also available at that site.

If a military unit record is not publicly available, a FOIA request may be submitted to the agency where the record is held. For example, for special access records held at the National Archives at College Park, contact the Archives FOIA office at the following:

Special Access and FOIA Division
 National Archives and Records Administration at College Park

<https://www.archives.gov/research/foia>
 Email: specialaccess_foia@nara.gov

For more information on how to submit a FOIA request, visit <https://www.foia.gov/how-to.html>.

Other types of auxiliary and organizational records, including Army morning reports, Army unit rosters, Army officer pay cards (WWI and WWII), Air Force morning reports, Navy muster rolls (ships only), U.S. Army Surgeon General’s office records and Veterans Administration index cards (WWI and WWII) are maintained at the National Archives in St. Louis, MO. Further information regarding these records, as well as the timespan of available records for each category, are available at <https://www.archives.gov/st-louis/other-records>. Certain published unit histories can also be found in the collections of the military departments (see **Table 1**).

Military Records for Veterans Compensation

To support disability claims of exposure to hazardous materials (e.g., Agent Orange, asbestos, radiation), some veterans may seek access to Army morning reports, unit rosters, pay cards, Navy muster rolls, Captain logs/Navy Deck logs, and other records from their time in military service.

For more information on hazardous material exposures, see the **VA's Military Exposure** site at <https://www.publichealth.va.gov/exposures/index.asp> and the **Exposures by Wars and Operations** site at <https://www.publichealth.va.gov/exposures/wars-operations/index.asp>.

For **Blue Water Navy Vietnam Veterans** see the VA's Blue Water Navy Veterans and Agent Orange Exposure site at <https://www.publichealth.va.gov/exposures/agentorange/locations/blue-water-veterans.asp>. The Blue Water Navy Vietnam Veterans Act of 2019 (P.L. 116-23) extended the presumption of herbicide exposure, such as Agent Orange, to veterans who served in the offshore waters of the Republic of Vietnam between Jan. 9, 1962 and May 7, 1975. See CRS In Focus IF11368, *Expansion of Benefits to Blue Water Navy Vietnam Veterans*, by Sidath Viranga Panangala.

For **Airborne Hazards and Burn Pit Exposures** see the VA's Public Health site at <https://www.publichealth.va.gov/exposures/burnpits/>. The VA continues to study the long-term health issues of deployed veterans and their exposure to burn pits used at military waste sites in Iraq, Afghanistan, and other areas of the Southwest Asia Theater of military operations.

On August 10, 2022, P.L. 117-168, also known as the *Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics Act of 2022* or the *Honoring our PACT Act of 2022*, became law. This act addresses “health care, presumption of service-connection, research, resources, and other matters related to veterans who were exposed to toxic substances during military service.”⁶

For more information, see also CRS Report R46107, *FY2020 National Defense Authorization Act: Selected Military Personnel Issues*, coordinated by Bryce H. P. Mendez, in the section “Screening and Testing for Environmental and Occupational Exposures;” and CRS In Focus IF11813, *Presumptive Service Connection: Former Servicemembers of Camp Stronghold Freedom at Karshi-Khanabad (K2) Airbase*, by Bryce H.
