MEMORANDUM FOR

Commanders, All Units Reporting Directly to This Headquarters
Directors and Chiefs, Staff Offices/Departments, This Headquarters

SUBJECT: Fort Knox Policy Memo No. 16-07 – Disclosure Policy on Release of Classified and Controlled Unclassified Information to Foreign Representatives and International Organizations

1. References.

- a. AR 380-5, Department of the Army Information Security Program, 29 September 2000.
- b. AR 380-10, Foreign Disclosure and Contracts with Foreign Representatives, 22 June 2005.

2. The exchange of information between Department of the Army and military establishments of foreign governments and international organizations is necessary for successful participation in international and functional agreements. At the same time, the protection of classified and sensitive/controlled unclassified information is essential to the security of the United States.

3. Disclosure of information will involve one of the following categories:

a. Classified Military Information (CMI). CMI is information requiring protection in the interest of national security and is assigned one of the following classifications: TOP SECRET, SECRET, OR CONFIDENTIAL. See AR 380-5 for additional information on classified information.

b. Controlled Unclassified Information (CUI). CUI is sensitive but unclassified information requiring a degree of control over its use and dissemination. CUI includes information subject to the Privacy Act of 1974, information exempt from mandatory disclosure outside the United States Government (ordinarily qualifies as For Official Use Only (FOUO) markings), technical maintenance or employment of military equipment systems, or information subject to export controls. This type of information is usually annotated with distribution statements B through F as described in AR 380-5.

c. Public Domain Information. This information is determined to be suitable for release to the general public.

SUBJECT: Fort Knox Policy Memo No. 16-07 -- Disclosure Policy on Release of Classified and Controlled Unclassified Information to Foreign Representatives and International Organizations

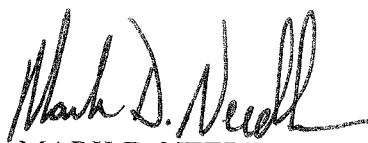

4. A foreign disclosure decision is required on all information considered for release to foreign representatives, unless it is clearly marked for public release. Per reference 1b, all CMI and CUI considered for disclosure must be referred to the installation Foreign Disclosure Officer for approval, denial, or further coordination. The designated Foreign Disclosure Officer for Fort Knox is the Chief, Security Division, Directorate of Plans, Training, Mobilization, and Security (DPTMS).

5. Release of USAARMC originated CMI or CUI will be made by the Fort Knox Foreign Disclosure Officer. Request for information belonging to another activity/agency requires written authorization from the "proponent/owner" before release. Coordination will be made through the Fort Knox Foreign Disclosure Officer.

6. The United States participation in bilateral or multilateral agreements does not automatically authorize disclosure of related CMI or CUI to other participants(s). Each potential disclosure of CMI or CUI must be evaluated on its own merit. The policy of the United States is to avoid creating false impressions of its willingness to make classified or unclassified information/technology available.

7. Point of contact is the Chief, Information/Disclosure, Security Division, DPTMS, 4-7186.
