In view of the critical part that IED Information and technical data play in IED-defeat efforts, DOD personnel must understand that following applicable information security, disclosure of information, and operations security policies play an important role in supporting coalition IED-defeat efforts.

3. Insurgent forces in the USCENTCOM AO can use public media, the Internet, and information gleaned from private, professional and technology forums to gain insights into coalition IED-defeat efforts. Therefore, information and technical data about IED-defeat efforts, particularly countermeasure technologies, defeat tactics, tactics, techniques, and procedures (TTP), and organizational and doctrinal initiatives, must be protected from unauthorized public release or disclosure.

4. Attention to DOD public disclosure and information security policies play an important role in protecting against unauthorized public release or disclosure of IED-defeat effort information and technical data, and will reduce the effectiveness of IEDs against coalition forces. The following types of information must be guarded and classified appropriately:

- Our specific knowledge of enemy IED TTP, and our analysis of enemy capabilities or vulnerabilities;
- Friendly force equipment, technological, organizational, or operational vulnerabilities;
- Specific friendly force technology areas or details, organizational initiatives, and operational procedures designed to counter IEDs;
- Specific exploitation TTP;
- Photos of or information about vehicles or equipment that have been damaged by an IED;
- Photos of or information about recovered components of an IED;
- Locally produced briefings; Note - the minimum level of classification for any briefing or document related to IED-defeat efforts is for official use only. The association of any of this information with deployed troops or specific locations will normally mean it should be classified and afforded an appropriately greater level of protection. Specific classification guidance can be obtained from the Joint IED-defeat organization. Briefings that are

INITIATIVES. ALL MUST BE PROTECTED.

5. THE FOLLOWING ARE APPROVED TALKING POINTS FOR ALL PERSONNEL:

(a) THE IED THREAT AND ITS DEFEAT IS A TOP PRIORITY FOR DOD;
(b) DOD IS DEVOTING SIGNIFICANT RESOURCES (EQUIPMENT, PERSONNEL,
AND TTP) TO DEFEATING IEDS;
(c) THE JIEDDO WORKS WITH THE SERVICES AND ALL OF DOD TO DEVELOP
INTEGRATED SOLUTIONS THAT BALANCE INTELLIGENCE, TRAINING AND
TECHNOLOGY;
(d) THE IED ISSUE IS A COMPLICATED ONE, AND NO SINGLE
SOLUTION EXISTS TO DEFEND IEDS. OUR STRATEGY INCLUDES THREE
COMPONENTS:

1) TRAINING IS PARAMOUNT. THE BEST SENSOR AND WEAPON ON
THE BATTLEFIELD IS A WELL-TRAINED, SITUATIONALLY AWARE SOLDIER,
SAILOR, AIRMAN OR MARINE.
2) KILLING OR CAPTURING BOMB MAKERS AND DISRUPTING OR ELIMINATING
THEIR NETWORKS IS VITAL.
3) PROVIDING TROOPS ON THE BATTLEFIELD WITH EFFECTIVE,
INNOVATIVE TECHNOLOGY ENABLES THE FIGHT.
